

The eDiscovery Service Line covers every stage of the process from identification of document sources through to trial.

The eDiscovery Timeline

BUILD YOUR STORY ONE FACT AT A TIME

ELMS works directly with your clients and their IT teams to get the job done efficiently and right the first time.

ELMS are specialists in document identification and collection, with expertise in understanding the document landscape and the best ways to collect material from it.

ELMS build into the litigation database the document landscape – so you can see how the documents were originally organised.

ELMS trains your lawyers in the technology so that we get to the right results quickly.

Irrespective of the size of your practice, with ELMS as your eDiscovery consultant you can handle any sized case.

By having ELMS at the table with you, the value and cost savings to the client are made clear.

We take the stress out of eDiscovery for you and your team.
